

# When you took my heart

Eddie Money

Can you hear the music in me?  
Your song that fills my ears  
You placed it there within me  
It's a love I've longed to share

I found what I've been searching for  
Deep within your eyes  
In the past, I lived without love  
Now I won't let it pass me by

When you took my heart  
I had longed for a love I had never known  
When you took my heart  
It was yours to have, 'cause you touched my soul  
Well, she came along and took this boy's hand  
And the child became a man  
When you took my heart

Falling in love was so easy  
But it's hard to understand  
How, at first, you think you've got it made  
Then it slips right through your hands

I really learned a lot, babe  
Your memory lingers still  
You really got to know me  
Like nobody ever will

When you took my heart  
I had longed for a love I had never known  
When you took my heart  
It was yours to have, 'cause you touched my soul  
Well, she came along and took this boy's hand  
And the child became a man  
When you took my heart

I found what I've been searching for  
Deep within your eyes  
In the past, I lived without love  
Now I won't let it pass me by

When you took my heart  
I had longed for a love I had never known  
When you took my heart  
It was yours to have, 'cause you touched my soul  
Well, she came along and took this boy's hand  
And the child became a man  
When you took my heart

Oh yeah, when you took my heart  
Well, she came along and took this boy's hand  
And the child became a man  
When you took my heart
