

# Amazing Love

Eddie Rabbitt

I knock on your door, it opens, and there you are  
The light of my life shining like a star  
You smile and tell me with your eyes  
That I belong here

I leave all the pain of the world outside  
Fall in your arms and it feels so fine  
With you holding on to me  
Well, girl, I'm strong here

And nothing feels like your amazing love  
It always heals, your amazing love  
I want you to know  
That every night I thank all the stars above  
My guiding light, your amazing love  
Where would I be now if I hadn't found you?  
Amazing love

I look in your eyes and I see a happy man  
In love with a girl who understands  
My heart you hold it in your hand  
And girl, I need you

I wouldn't know what to do  
I wouldn't know where to go without you

And nothing feels like your amazing love  
It always heals, your amazing love  
I want you to know  
That every night I thank all the stars above  
My guiding light, your amazing love  
Where would I be now if I hadn't found you?  
Amazing love

Nothing feels like your amazing love  
It always heals, your amazing love  
Where would I be now if I hadn't found you?  
Amazing love

And nothing feels like your amazing love  
It always heals, your amazing love  
I want you to know  
That every night I thank all the stars above  
My guiding light, your amazing love  
Where would I be now?
