

# One And Only One

Eddie Rabbitt

You're my one and only one  
Yours are the only eyes I see  
You're my one and only one  
You are my sweetest fantasy

Ooh, well, I know we've had our doubts  
But we keep workin' 'em out  
And you're where I want to be  
So let the cold winds blow  
I want you to know

You're my one and only one  
Yours are the only arms I need  
You're my one and only one  
You are my only destiny

Baby  
You'll always be my special lady  
Without your love, I'd just go crazy  
After all is said and done  
You're my one and only one

Ooh, you're magic makin' love  
And I can't get enough  
Let me feel your love again  
Put your lips on mine  
Let me show you one more time

You're my one and only one  
Yours are the only eyes I see  
You're my one and only one  
You are my sweetest fantasy

You're my one and only one  
You're my one and only one  
You're my one and only one  
You're my one and only one

You're my one and only one  
You're my one and only one  
You're my one and only one
