

One And Only One

Eddie Rabbitt

You're my one and only one
Yours are the only eyes I see
You're my one and only one
You are my sweetest fantasy

Ooh, well, I know we've had our doubts
But we keep workin' 'em out
And you're where I want to be
So let the cold winds blow
I want you to know

You're my one and only one
Yours are the only arms I need
You're my one and only one
You are my only destiny

Baby
You'll always be my special lady
Without your love, I'd just go crazy
After all is said and done
You're my one and only one

Ooh, you're magic makin' love
And I can't get enough
Let me feel your love again
Put your lips on mine
Let me show you one more time

You're my one and only one
Yours are the only eyes I see
You're my one and only one
You are my sweetest fantasy

You're my one and only one
You're my one and only one
You're my one and only one
You're my one and only one

You're my one and only one
You're my one and only one
You're my one and only one
