

# We Must Be Doing Something Right

Eddie Rabbitt

We were just two young lovers  
We were barely out of school  
And I learned what forever meant  
When I fell in love with you

I put a ring on your finger  
And we stumbled into life  
We didn't know where we were going back then  
Oh, but that was alright

We were just getting started  
I was only seventeen  
When I got my first job on the line  
Oh, they worked me like a machine

But not one drop of my blood or my sweat  
Or one day do I regret  
I worked hard all my life  
And this is as good as it gets

We must be, we must be doin' somethin' right  
'Cause baby I'm still happy after all this time  
You still bring out the best in me  
And any fool could see, that you and me  
O-o-oh, we must be, we must be doin' somethin' right

And it's all so amazing  
How the years go flyin' by  
I look at my children growin' up  
And I see myself in their eyes

And you still drive me crazy  
And that old fire's burning bright  
And yeah the guys still laugh at me  
When I go rushin' home at night.

We must be, we must be doin' somethin' right  
'Cause baby I'm still happy after all this time  
You still bring out the best in me  
And any fool could see, that you and me  
O-o-oh, we must be, we must be doin' somethin' right

Ah! Ah! Ah! Ah! Ah!

We must be, d-d-d-doin' somethin' right  
'Cause baby I'm still happy after all this time  
You still bring out the best in me  
And any fool could see, that you and me  
O-o-oh, we must be, d-d-d-doin' somethin' right

'Cause baby, baby I'm still happy after all this time  
You still bring out the best in me  
And any fool could see, that you and me...
