

## No Ceiling

Eddie Vedder

Comes the morning  
When I can feel  
That there's nothing  
Left to be concealed  
Moving on,  
a scene surreal  
Know my heart will never  
Never be far from here

Sure as I'm breathing  
Sure as I'm sad  
I'll keep this wisdom  
In my flesh  
I leave here believing  
More than I had  
And there's a reason I'll be  
Reason I'll be back

As I walk  
the hemisphere  
Got my wish  
to up and disappear  
I been wounded  
I been healed  
Now for landing I been  
Landing I been cleared

Sure as I'm breathing  
Sure as I'm sad  
I'll keep this wisdom  
In my flesh  
I leave here believing  
More than I had  
This love has got  
No ceiling
