

Easy on the Eyes

Eddy Arnold

You're my loving honey
And you're worth your weight in money
You're so easy on the eyes
And when we walk to town
Why everybody turns around
'Cause you're so easy on the eyes

You've got a face
That could win first place
In any beauty contest held
And baby every time we kiss
I yell I hope heaven's gonna be like this

And when you go in swimming
You're the envy of the women
You're so easy on the eyes
Boys start making passes
Old men throw away their glasses
You're so easy on the eyes

I'm gonna treat your hand
To a wedding band
And grab myself a prize
'Cause you're so easy, easy on the eyes

I think your figure great
It's what's known as whistle bait
Cause it's so easy on the eyes
Your cloths you sure take pride in
But it's what you put inside 'em
That's so easy on the eyes

You've got a smile
That can drive me wild
It makes me wanna hug you tight
And when you roll those eyes at me
I started lighting up just like a Christmas tree

When your schooling days were done
Your school mates voted you the one
Most easy on the eyes
And when it comes to loving
You're the queen of turtle doving
And I'll show the world I'm wise

I'm gonna treat your hand
To a wedding band
And grab myself a prize
'Cause you're so easy, easy on the eyes
