

# I Wish I Didn't Love You So

**Eddy Arnold**

I wish I didn't love you so  
My love for you should have faded long ago  
I wish I didn't need your kiss  
Why'd must your kiss torture me as long as this

I might be smiling I know with some new tender friend  
Smiling I know with my heart on the mend  
But when I try something in that heart says no  
You're still there I wish I didn't love you so  
[ guitar ]  
But when I try something...
