

## To Life

Eddy Arnold

Life you have been good to me  
Life have you chosen me to give your blessings to  
Life you served your finest wine  
I drank it down to find my glass was always full  
Life sometimes you made me sad  
Although I always had the very best  
A friendship love and happiness  
Tonight I raise my glass to you  
I hope that I been through to life  
[ ac.guitar ]  
And yes you you served your finest wine  
I drank it down to find my glass was always full  
Life sometimes you made me sad  
Although I always had the very best  
A friendship love and happiness  
And now when it's all been said and done  
I dedicate this song to life
