

Go Against The Wind

Eddy Raven

Met a girl,
Out in monterray she had raven hair, and eyes for me she kissed
me soft, oh but she loved me hard she tried to make me something,
i could never be now, there's an airplane on the runway that's
me on my way out heading for some place, i've never been and
i never said goodbye i never stopped to wonder why sometimes,
you just go against the wind now some guys, they always take the
easy way they never rock the boat, never make no waves but me...
i never could see it like that life's a little too short -
to play it so safe
I'm just a dreamer travellin' light another rebel, on a one-way
flight yeah..... screamin' through the night runnin' from the
one i love runnin' from a real love fade out...
