

# Heart On The Line

Eddy Raven

Now I thought it over how it's come to this  
I must have lost all my common sense  
I been chasin' a dream runnin' through my mind  
So I called her up to say how I felt  
Just before I could get it out she was gone, the silence was on  
She didn't hear a word, she just hung up the phone

Chorus:

Operator, operator, could you be so kind  
As to reconnect this number, I just spent my last dime  
She's got my love on hold and my heart is on the line

Well I was always just one step ahead  
Just close to keep my fingers wet  
I been actin a fool and foolin no one but myself  
But now I'm ready to talk if you're willing to hear  
The choice of words is my biggest fear, I'd say anything, yes I  
would, just  
To change your mind  
You've got my love on hold and my heart is on the line

Chorus X2
