

You Know I Can

Eden's Crush

When I see you sad
With your head down low
Didn't know what she had
She was a fool to let you go

I'm gonna take away your pain
Make her loss my gain
I know you haven't seen me yet
Or thought of me that way

But I've been watching you
Waiting for this day
I'll be all you need to forget her
You'll see through different eyes
I'm gonna make you realize

[Chorus]

I'm not as naive as you think I am
Know what goes on between a woman and a man
Don't act so serious just take my hand
Do you wanna know
Can I do ya right
Can I make you want me
You know I can

You've got perfect lips
I always dream of kissin'
When i wake up boy
It's always you I'm missin'

Wanna be with the real you
Come and make my dreams come true
I gotta go easy gotta take my time
I got my arms here waiting
To help you cross the line

[Chorus]

[Bridge]

You look at me and see innocence
Might seem like I don't have experience
Nothing you give to me is too intense

Do ya wanna know
Can I do ya right
Can I make you want me
You know I can
