

# God Did It

Edgar Winter

They say God made the Earth in six days  
He said, it looks good so it all stays  
The seventh day He took a rest  
I'm not so sure that was for the best  
(but)  
If God did it, I can't take credit  
If God did it, just forget it  
If God did it, it's not my fault  
It's up to him to call a halt  
Adam and Eve had the garden of Eden  
And everything they would ever be needin'  
He put the fruit on the tree of knowledge  
To get smart now, boy, you have to go to college  
(awh)  
If God did it, to teach us a lesson  
If God did it, it must be a blessin'  
Adam slipped, and man fell  
So now we all can - go to Hell  
God looked down and saw a world of sin  
He said, I'll wash it clean and start again  
He told old Noah, it's a big pain  
You better get ready for a little rain  
(well)  
If God did it, I guess it was needed  
If God did it, his warning was heeded  
He said, here's the plan; so Noah, hark  
You're the man; go build that Ark  
We've got God's word; It's in the Bible  
If it's not all true, we can sue for libel  
It's totally awesome and simply devine  
My favorite miracle is water to wine  
If God did it, it must be holy  
If God dit it, for amusement solely  
I believe every word He spoke  
I just hope He can take a joke  
(Ha-hah, come on, God)  
I hope I don't sound like a blasphemer  
May God forgive me, cause He's the redeemer  
He sent His only Son to be our Savior  
But just to be sure I'm gonna watch my behavior  
If God did it, it's His decision  
If God did it, well, it's His religion  
I love God, and I'm a true believer  
But sometimes He seems like an overachiever  
The prophesyin' in Revelation  
There's no denyin', will be a sensation  
The war of wars to close the show  
With God and the Devil goin' toe to toe  
If God did it, it's His intention  
If God did it, he goes on to mention  
Some helpful hints and a few tips  
On how to survive the Apocalypse  
If God did it, there's no intervention  
If God did it, it's beyond comprehension  
If God did it, the way things are headin'  
It's startin' to look like Armegeddon  
I'm on my knees, and I pray

Lord have mercy on judgement day  
I'm not worthy, and I know it's a sin  
So I surrender, Go-o-o-o-o-d, You win  
YOU WIN!
