

Rebel Road

Edgar Winter

Now, kick it now, kick it all night long

You know I was born to ride on the rebel road
Been 'livin' my life on rebel road

Been on this road my whole damn life
Different bar every other night.
Livin' in the city seeing all the sights
Motherf**ker actin tough startin all the fights.

Been livin my life on the rebel road
You know I was born to ride on rebel road
(Guitar solo)
Now, kick it now, kick it all night long

Immature, that's what they told me
Goin nowhere, that's the lie they sold me.
Livin my life, on this road of gold
Never gonna leave, the rebel road.

You know I was born to ride.

Now, kick it now, kick it all night long
(Guitar solo)
I was always born to ride
On the rebel road.

Livin' my way out on rebel road
I know it's been gold out on rebel road.
You know I was born to ride.

(Guitar solo)
