

Isolation

Edge of Dawn

As day turns night
As night turns day
Standing at the edge of dawn

As night turns day
As day turns night
Will you take the hard or easy way

Standing at the edge of dawn

I wont give you up
I'll calm you down

The empty glass
Your eyes
When you hit the ground

Isolation

I can turn against you anytime

Isolation

I can turn against you anytime

Isolation

Searching for salvation

As day turns night
As night turns day

Standing at the edge of dawn

As night turns day
As day turns night

Will you take the hard or easy way

I can turn against you anytime
Two of a kind
Isolation

I can turn against you anytime
A bullet from behind
Isolation

Two of a kind

Isolation

Isolation

I can turn against you anytime,
turn against you
Two of a kind

Another mother left behind

Isolation
