

# Born, Breed, Bleeding

Edge of Sanity

Kneel down, yeah down on your knees  
We are superior, do as we please  
Won't let you up, we'll keep you restrained  
We'll make sure, that your life is pain  
You are the poison that sickens our land  
Keep you under water, so you can't make your stand  
We are infected and you're the disease  
Let you live like animals so you powers won't increase

You're a slave, make no mistake  
This is the order, you give and we take  
From the start , we'll keep you in chains  
Ball and chain, that you barely can lift  
So stay down, down in your pit  
You are a venom you fucking misfit  
We'll make you normal and keep you in shape  
Free from emotion can't love nor hate

No emotion, you feel your mind is drained  
Your mind is slowly brainwashed  
Soul distortion, an empty feeling fills you  
We grind your love and hate to shreds

What will it take for you to realize  
That you are killing yourselves  
What will it take for you to open your eyes  
Are you beyond all help  
What will it take for you to realize  
That you are killing yourselves  
What will it take for you to open your eyes

You're a slave, make no mistake  
This is the order, you give and we take  
From the start , we'll keep you in chains  
Ball and chain, that you barely can lift  
Kneel down, yeah down on your knees  
We are superior, do as we please  
Won't let you up, we'll keep you restrained  
We'll make sure, that your life is pain

Psychic violence keeps you restrained  
Forever your our slave  
Keep you looking with ball and chain  
Leeds you to the shallow grave

No emotion, enslaved  
Your mind is slowly brainwashed  
Soul distortion, an empty feeling fills you  
We grind your love and hate to shreds

Born, breed, bleeding...
