So what is life

Don't we all dream of dying or when to die

Mesmerized we try to find the answers we rather keep inside

Se what are we on our knees and image of all that used to be

Straight forward death campaign

Let's go where the dreams shall always reign

So what is death

No need to die

It's a power we can deny

Leaving dead a way of life

:aid to rest is this a lie

Forever turned backwards

Break the circle

Hypnotised

Insanity

Universal

Invert the starsign in the sky

Hang on

Our journey's begun

Survival means failure under this black burning sun

Be strong your walk has been long

But these wings of fire will carry you on

Murder one

Race is run

Killing spree is life undone

Are you dead before you live

Do you have to take before you give

Day of time yet to come

Your clock is ticking by your dream-drum left for dead

Left to life

Will you overcome the circle strife

The skeletons in your closed world

awaits the angel of a world that burns

The dream begins

No need to repent your living sins

Nevergood

Nevermore

You're free to hate the ones before

Wordly devastation is nothing compared to altered mind
