

Break Me Out

Edgewater

I sit, I sit and watch my days they disappear
Waste away in fear
Will you wait? Why won't you wait for me?
Do you still believe that I will free myself?

In my cell sunlight breaks oh well
Can't you see what this shit has done to me?
Do you still believe I'll free myself?

Did you wonder did you notice?
How I slept today
Did you wonder?
Won't you just break me out?
Break me out
Break me out
Break me out

Won't you won't you wait?
Won't you won't you wait?
Why can't you won't I am you don't
Break me, save me, liar, I am
