

Echo

Edgewater

It's deep within
I hear the voices of life
It burns again
It's like this echo inside
It burns inside

So please will you tell the truth
It's in your eyes
So please, well I'm so confused
No more lies

You speak to me
You talk down, degrade, envy
It screams at me
It's like this echo inside
Screams inside

So please will you tell the truth
It's in your eyes
So please, well I'm so confused
No more lies

No more lies
No more lies
It's inside
It burns inside

So please will you tell the truth
It's in your eyes
So please, well I'm so confused
No more lies

Echo, echo, echo, echo echo...
