## Edgewater

So proud  
Well take a bow  
It's coming 'round  
And I think I'll give you a taste  
You won't forget the day we met  
And what was said

So now  
The time has come  
To watch your back  
Don't stand alone  
And I'll say just one last thing  
Don't turn away

Why can't you listen to me?  
You'll find it out  
The price is out on your head  
And I'm willing to pay  
Your time ran out  
Your lights go down in red

Afraid  
To take a stand  
You had one last chance  
To make amends  
Now you'll pay  
For your mistakes  
It's your last day

Why can't you listen to me?  
You'll find it out  
The price is out on your head  
And I'm willing to pay  
Your time ran out  
Your lights go down in red

Listen to me  
You'll find it out  
The price is out on your head  
And I'm willing to pay  
Your time ran out  
Your lights go down and now you'll see

I don't give a fuck  
No, I don't give a fuck

Listen to me, lesson to you  
Listen to me, lesson to you  
Listen to me break

Why can't you listen to me?  
You'll find it out  
The price is out on your head  
And I'm willing to pay  
Your time ran out  
Your lights go down in red

Listen to me  
You'll find it out  
The price is out on your head  
And I'm willing to pay  
Your time ran out  
Your lights go down and now you'll see

So proud  
Well take a bow  
It's coming 'round  
You'll find out

Listen to me, lesson to you  
Listen to me, lesson to you  
LISTEN TO ME, LESSON TO YOU
