

## Lifter

Edgewater

Down a road less traveled and I see my purpose in front of me  
And it's simple and It's gentle I found  
Down a road less traveled and I feel my conscience running deep  
And it's simple but it's mental I found

And I'm never looking back  
No I'm never looking back  
No I'm never looking back again

We all fall down  
Time keeps changing  
We all will hit the ground

Down a road less traveled, and I see my world beneath my wings  
And it's simple but it's crippled I found  
Down a road less traveled...
