

## Neglected

Edgewater

I feel sometimes that she's not missed at all  
I feel this time that she's been left behind

I feel sometimes that she's neglected  
I feel sometimes that she will rise

Why has her life been dismissed?  
Somebody tell me why  
Has her life been dismissed?

Cold December day I walked in  
Well there she lay  
Her skin was bare the tears rolled down her face  
They're tears of fear death takes her place  
And I am scared of

She needs more time

Today is not a good day she left the life she lived  
Today is not a good day she left the life she's given

Won't walk away
