

Pill

Edie Brickell

Say you can't pay attention
It's getting pretty rough
You feel a little down now
You can't get it up
They got a pill for that
They got a pill for that
They got a pill for that
They got a pill for that

Now the pressure is rising
It's getting to your head
Nothing is exciting
You want to stay in bed
They got a pill for that
They got a pill for that
They got a pill for that
They got a pill for that

Side effects may include:
Headache and anxiety
Loss of appetite mood swings
Palpitations & dry lips
No desire to be kissed

You lie down in the darkness
It's there when you awake
Hounded by a problem
Haunted by mistakes
They got a pill for that
They got a pill for that
They got a pill for that
They got a pill for that

They got a pill for that
They got a pill for that
They got a pill for that
They got a pill for that

They got a pill for that
They got a pill for that
They got a pill for that
They got a pill for that

Ooooh
Ooooh
Ooooh
