

## This House

Edison Glass

I shut all my windows  
They protect me from the storm  
I'm alone but I wait for someone  
One who keeps the lights on  
One who keeps the house warm

I feel a swaying rhythm  
If we get swept to sea I'll be happy  
It's all we wish for now  
I wish you'd keep the lights down  
I wish you'd keep the house warm

We have enough we can handle it  
If we don't make I will fall apart  
All is in vain for us.

I think we can make it now  
I think that we can make it  
I wish you'd keep the lights down  
I wish you'd keep the house warm
