

Forest Fire

Editors

Take me home, somewhere safe
Lean on me, saving grace
Such a light, where you are
Something new, forest fire

I'll miss this when it's gone
Let's not waste life, come on
I'll miss this when it's gone
Let's not waste life, come on, come on

We all sit next to the fire
We watch you burn
Oh, we all sit next to the fire
And watch you burn
