Nothing

The sun said nothing About my demise My fall to the floor

Sparks from your stare Cascade into mine Started a war Started a war

Monday morning Hungover, red eyes Hide it all the way

We walk through a crowd of strangers Two minutes from your door You lived there all your life

Every conversation within you Starts a celebration in me Till I got nothing left I got nothing left

Out of it you handle it for everyone
Take a poison dart to my heart and then I'm gone

Every conversation within you Starts a celebration in me Till I got nothing left I got nothing left

These floorboards creaking
My body's old
The sun casts a shadow
At dusk that cuts through your bones
Your body and soul

Every conversation within you Starts a celebration in me Till I got nothing left I got nothing left I got nothing left I got nothing left
