```
Look up look up there
It's a long way down
Look up look up now
It's a long way down
You fail you fail to see now
What you need the most
Making a meal of me now
You're the perfect host
This lot
This lot
Has messed you around
Well this lot
This lot
Has messed you around
Open your arms in welcome
To people to your town
Look up look up look up now
It's a long way down
This lot
This lot
Has messed you around
Well this lot
This lot
Has messed you around
This lot
This lot
Has messed you around
Well this lot
This lot
Has messed you around
Open your arms in welcome
```

People to your town
