

# I Am The Ostrich

Edson

This is the end  
This is the time where  
I won't change my mind again  
No, I cannot pretend  
To be an ostrich nor a peacock when it ends

And there's no easy way out  
There's no easy way out  
There's no easy way out  
You don't have to make it right  
There's no easy way out  
There's no easy way out

Lend me some lust  
Lend me some time  
And I will pay you back in trust -  
Trust your undertone  
Don't let the bastards  
Bring you down when you're alone

And there's no easy way out  
There's no easy way out  
There's no easy way out  
You don't have to make it right  
There's no easy way out  
There's no easy way out

This is the end  
This is the time where  
I won't change my mind again  
No, I cannot pretend  
To be an ostrich nor a peacock when it ends

And there's no easy way out  
There's no easy way out  
There's no easy way out  
You don't have to make it right  
There's no easy way out  
There's no easy way out

And there's no easy way out  
There's no easy way out  
There's no easy way out  
You don't have to make it right  
There's no easy way out  
There's no easy way out
