

Dear Believer

Edward Sharpe & The Magnetic Zeros

Somewhere over the earth
A song, a song
Somewhere I have heard
My brother is gone

Away, under the moon
Brother, brother
Away, gone so soon
Still singing his tune
Still singing his tune

And away he gone day
And away he gone night
And away he gone dark
And away he gone light

Up and away he gone away
But in a way he gonna stay
Oh, brother of hearts
We'll be singing someday
Yeah, we'll be singing someday
Oh, we'll be singing someday

Oh, brother of hearts
We'll be singing someday
Undead audio
Yes, we'll be singing right now

Some say I am to blame
Brother, brother
Some days I fell the same
And feeling that shame
Away under the moon

Brother, brother
Away gone so soon
Still singing this tune
Still singing his tune

And away he gone day
And away he gone night
And away he gone dark
And away he gone light

Up and away he gone away
But in a way he gonna stay
Oh, brother of hearts
We'll be singing someday
Yeah, we'll be singing someday
Oh, singing someday

Oh, brother of hearts
We'll be singing someday
Undead audio
Yeah, we'll be singing right now
