One Love to Another

Edward Sharpe & The Magnetic Zeros

Somewhere over the earth A song, a song Somewhere I have heard My brother is gone

Away, under the moon Brother, brother Away, gone so soon Still singing his tune Still singing his tune

And away he gone day And away he gone night And away he gone dark And away he gone light

Up and away he gone away But in a way he gonna stay Oh, brother of hearts We'll be singing someday Yeah, we'll be singing someday Oh, we'll be singing someday

Oh, brother of hearts We'll be singing someday Undead audio Yes, we'll be singing right now

Some say I am to blame Brother, brother Some days I fell the same And feeling that shame Away under the moon

Brother, brother Away gone so soon Still singing this tune Still singing his tune

And away he gone day And away he gone night And away he gone dark And away he gone light

Up and away he gone away But in a way he gonna stay Oh, brother of hearts We'll be singing someday Yeah, we'll be singing someday Oh, singing someday

Oh, brother of hearts We'll be singing someday Undead audio Yeah, we'll be singing right now
