Far From Over

Edwin McCain

Well this life's stretched out before me The highway shimmering with stars The knowing glances of the runaways That never made it this far

I can't believe she said that we can work it out
I thought that we were near the end
Gone are the days
All the trouble and the doubt
This is far from over my friend

My lover's name is music Well she's held my heart so long Tethered and pulling at the chains of disregard What if all of this is wrong

I can't believe she said that we can work it out
I thought that we were near the end
Gone are the days
All the trouble and the doubt
This is far from over my friend

And we throw our prayers up skyward Hoping anyone will hear From Storyville to Broadway This soul won't disappear

Well I heard that boy in Memphis Playing memories and dreams The ghosts of miracles played upon the stage And then vanishing like steam

I can't believe she said that we can work it out
I thought that we were near the end
Gone are the days
All the trouble and the doubt
This is far from over my friend
