

## Throw It All Away

Edwin McCain

It's taken all this time to work you out  
And if I wasn't sure before now I'm in no doubt  
You're running out of things to say and I can see it in your face  
You're going to throw it all away

Makes no difference what you say cause you can't hide it  
Cause every moment slips away there's no denying  
That I know, yes I know  
You're going to throw it all away

You've been running for so long you've lost your way  
It doesn't matter what you do it's getting closer every day  
You're running out of things to say and I can see it in your face  
You're going to throw it all away

You're going to throw it all away  
You're going to throw it all away  
You're going to throw it all away
