

Rush

Edwin

Sometimes you walk
Sometimes you crawl
Other times you're flying
You feel the thrill not knowing where you'll land

Give me give me that rush
I need wings and I need healing
In my veins and in my blood
Give me give me that rush

Sometimes its gold
Sometimes its brass
Sometimes you're fire
The feel the mount of Venus in your hand

Give me give me that rush
I need wings and I need healing
Don't need drugs I don't need dreaming
Give me give me that rush

If it never comes is the damage done
Nothing that I can't believe in
Its just another face of don't I know your face
Its just the joy of receiving

Give me give me that rush
I need wings and I need healing
In my veins and in my blood
Give me give me that rush

Give me give me that rush
I need wings and I need healing
Don't need drugs I don't need dreaming
Give me give me that rush

Give me that rush
Give me that rush
