

I haven't slept in days I kick the can around
Can't even smoke a J and chew my bubble gum
Don't have the time to talk and joke or hang around
This superhoney's coming down

Woo hoo little Miss Electro
Woo hoo she's pluggin' me in
Woo hoo a technicolor freak show
She's my original sin
Superhoney

You wanna keep on talkin' sayin' nothin' good
I wanna keep you thinkin' like you never should
We're spending all night long in never never land
This superjunkie's spinnin' round

Woo hoo little Miss Electro
Woo hoo she's pluggin' me in
Woo hoo she loves to go retro
She's my original sin

You're just another hit that I'm dependin' on
You're just another taste that I've been sucking on
In your big brass bed you never sleep
In your big brass bed you never...
