

Trippin

Edwin

Trippin' around down town
Throw me a crumb throw me a bone, yeah
Street kid comes along
Let me through, he say's,
I'm higher than you, now
I feel like a star
I feel like a star
Kicking the can around

The air is high, my mouth dry, feeling mellow
Sweet thing come along
I say hello, she say's hello and did you know
I feel like a star
I feel like a star
It's never very far
I feel like a star
(you're never very far)

Fallin' down
Burning out
Shootin' through the sky watch the meteor fly
Gather 'round
Gather 'round
Watch me as I hit the ground

Trippin around down town
Throw me a crumb throw me a bone, yeah
I feel like a star
I feel like a star
It's never very far
I feel like a star
Yeah yeah yeah

Fallin' down
Burning out
Shootin' through the sky watch the meteor fly
Gather 'round
Gather 'round
Watch me as I hit the ground
Watch me as I hit the ground
