

Its A Funny Thing

Edwyn Collins

It's a funny thing
A funny phase I'm going through
As I drift through space
Nothing left to cling to
Don't think me morose
I've always been a tryer
Now here's what I propose
I gonna take you higher

It's a funny thing
I'm wondering what tomorrow might bring
If it's more of the same
I've only got myself to blame
That's a funny thing

It's a funny world
When you drift above it
An opalescent pearl
I could grow to love it
If I fall from grace
Will I land upon my feet?
Now I've acquired a taste
The air up here seems oh so sweet

And that's a funny thing
I'm wondering what tomorrow might bring
If it's more of the same
I've only got myself to blame
That's a funny thing
It's a funny thing

Don't think me morose
I've always been a tryer
Now here's what I propose
I gonna take you higher

It's a funny thing
Such a funny thing
