

When You Come Back to Me

Edyta Górníak

Now that I've found you,
The feeling won't leave my heart.
Holding on without you,
Alone here in the dark.
And I hope you're dreaming of me,
The way I dream of you.
And I pray each night we'll have a chance,
To make them all come true.

When, when you come back to me.
I'll hold you 'till forever ends,
And never let you go again.

When, when you come back to me.
I'll welcome you into my heart,
Like we've never been apart.

Our lives crossed in a moment,
All the others disappear.
A feeling so familiar,
And the meaning was more than clear.
When I felt your eyes break through me,
I knew I'd need you like the sun.
And as the dawn came up around me,
I knew you'd be the one.

When, when you come back to me.
I'll hold you 'till forever ends,
And never let you go again.

When....

When, when you come back to me.
I'll welcome you into my heart.
When you come back to me,
Like we've never been apart.

When you come back to me.
