

# Everything's Gonna Be Cool This Christmas

Eels

Remember last year when you were on your own  
You swore the spirit couldn't be found  
December rolled around and you were counting on it  
To roll out

Well, everything's gonna be cool this christmas  
Everything's gonna be cool this christmas  
Everything's gonna be cool this christmas

Well everybody's lookin' for you down at the house  
The tree is looking so inspired  
There's a yuletide groove waitin' for you to move  
I'll go and throw another log on the fire

Everything's gonna be cool this christmas  
Everything's gonna be cool this christmas  
Everything's gonna be cool this christmas

As days go by the more we need friends  
And the harder they are to find  
If i could have a friend like you all my life  
Well i guess i'd be doin' just fine

Everything's gonna be cool this christmas  
Everything's gonna be cool this christmas  
Everything's gonna be cool this christmas
