

I Like Birds

Eels

I can't look at the rocket launch
The trophy wives of the astronauts
And i won't listen to their words
'cause i like
Birds

I don't care for walking downtown
Crazy auto-car gonna mow me down
Look at all the people like cows in a herd
Well, i like
Birds

If you're small and on a search
I've got a feeder for you to perch on

I can't stand in line at the store
The mean little people are such a bore
But it's alright if you act like a turd
'cause i like
Birds

If you're small and on a search
I've got a feeder for you to perch on
