

If You See Natalie

Eels

If you see natalie
Send along this message
I know that you've been through
An awful lot of late

Girl,
Steady the trembling hand
That's what you do
Girl,
Steady your trembling hands
Then see what's in front of you

Friends and fortunetellers
They all say you're gonna die
If you don't brighten up
You know you gotta try

Girl,
Steady the trembling hand
That's what you do
Girl,
Steady your trembling hands
Then see what's in front of you

If you see natalie
Send along this message
You may not need this world
But this world needs you here

Girl,
Steady the trembling hand
That's what you do
Girl,
Steady your trembling hands
Then see what's in front of you

You might not feel it now
But you're gonna get there
And see it somehow
You're gonna be alright, girl
