

# Last Stop: This Town

Eels

You're dead but the world keeps spinning  
Take a spin through the world you left  
It's getting dark a little too early  
Are you missing the dearly bereft?

Taking flight and you could be  
Here tomorrow  
Taking flight, well, you could get  
Here tonight

I'm gonna fly on down for the  
Last stop to this town  
What?  
I'm gonna fly on down then fly away  
Well, alright

Get down

Taking a spin through the neighborhood  
The neighbors scream  
Whatchya talkin' bout?  
'cause they don't know how to  
Let you in  
And i can't let you out

What if i was not your only friend  
In this world  
Can you take me where you're going  
If you're never coming back

I'm gonna fly on down for the  
Last stop to this town  
I'm gonna fly on down  
Then fly away on my way

Get down

Why don't we take a ride  
Away up high  
Through the neighborhood  
Up over the billboards and the factories  
And smoke

I'm gonna fly on down for the  
Last stop to this town  
Yeah  
I'm gonna fly on down  
Then fly away on my way  
Fly away

Get down
