

Open My Present

Eels

I wanna open my present
look at it rapped up in little big bones
back up tight just waiting for me,
to rip it open and set it free.

Relieve my state
I just can't wait

I wanna open my present
well I'm a good boy, I behave myself
I've been patient and waiting so long
but waiting any longer it just feels wrong.

I know it's great, I just can't wait.

It's right in front of me,
I can't stop thinking about it
what's the harm in letting me,
go no longer, living without it.

I wanna open my present
Well I've been working too hard for too long
Say my prayers and getting my sleep,
been here quiet, not making a peep.

I know it's great, I just can't wait.

It's right in front of me,
I can't stop thinking about it
what's the harm in letting me,
go no longer, living without it.

I wanna open my present
look at it rapped up in little big bones
back up tight just waiting for me,
rip it open and set it free.

Relieve my state
I just can't wait
