

That's Not Her Way

Eels

Yeah, she's all right
Just floatin' through her day
People throwin' words 'round
And talkin' such trash
There's so much she could say
That's not her way

That's not her way

Oh, I've been a fool
Other things on my mind
It's not hard to assess
The many terrible things she could say
But that's not her way

People, that's not her way

Yeah, she's all right
She knows who she is
She could stop and remind me of
The many ways she brightens my day
That's not her way

People, that's not her way
