

# Everything Is Poison

Ego Likeness

I make the king drink first  
I make the king drink first  
However cruel I've been  
You know that he's been worse  
I make the jury nervous  
Make the jury nervous  
You say it's a crime  
I think it was a service

And now the tigers come for me  
And now the tigers come for me

Everything is poison  
Nothing is poison  
Nothing is poison  
Nothing is poison

I do not know regret  
I do not know regret  
They say that judgement's coming  
But it hasn't yet

And now the tigers come for me  
And now the tigers come for me

Everything is poison  
Nothing is poison  
Nothing is poison  
Nothing is poison

I will be consumed  
I will be consumed  
For everything you've done  
You'll be devoured too

And now the tigers come for me  
And now the tigers come for me

Everything is poison  
Nothing is poison  
Nothing is poison  
Nothing is poison
