

Dying To Leave

Egypt Central

Questions build up like bricks stacked with anger
Patiently waiting for more
She has the confident strength of any army
Gathered and waiting for war

Stay
Will you stay

If your dying to leave
And walk out on me
Stand up and say it to my face
Will you hold on or let go
Because I deserve to know
Make up your mind and set me free
If your dying to leave

Quiet and comfort she holds her decision
Further back now than before
And I find a place between guilt and suspicion
Memories pulling at my core

Stay
Will you stay

If your dying to leave
And walk out on me
Stand up and say it to my face
Will you hold on or let go
Because I deserve to know
Make up your mind and set me free
If your dying to leave

Make your mind up
Don't leave me hanging here
Take this noose away

Make your mind up
Don't leave me hanging here
Take this noose away

Stay
Will you stay

If your dying to leave
And walk out on me
Stand up and say it to my face
Will you hold on or let go
Because I deserve to know
Make up your mind and set me free
If your dying to leave

Will you hold on or let go
Because I deserve to know
Make up your mind and set me free
If your dying to leave
If your dying
