

Hate

Egypt Central

I swear I thought it wouldn't happen again
Forget the times that we wasted
But by the time I got you out of my head
It hurt so bad I could taste it

I thought I told you before
I know I told you
Hate, hate
That's all that's left in me
Hate, hate
That's all that's left in me

I thought I told you before
I know I told you
Hate, hate
That's all that's left in me
Hate, hate
Oh god just set me free

I know you pulled voodoo up over my eyes
My view is clearer in hindsight
You are the kind of person that I despise
So get the fuck out of my life

I thought I told you before
I know I told you
Hate, hate
That's all that's left in me
Hate, hate
That's all that's left in me

Why ruin my life
You can never take me
Hate, gate
That's all that's left in me
Hate, hate
That's all that's left in me

I thought I told you before
I fucking told you
I thought I told you before
I know I told you
I thought I told you before
I fucking told you

There's nothing left but
There's nothing left but
There's nothing left but hate
I know I told you

There's only one thing I have left to say
I never believed your bullshit
You never had the hope to come with your grace
I hope you think you can pull this

I thought I told you before
I know I told you

Hate, hate
That's all that's left in me
Hate, hate
That's all that's left in me

I thought I told you before
I know I told you
Hate, hate
That's all that's left in me
Hate, hate
That's all that's left in me

I thought I told you before
I fucking told you
There's nothing left but hate
There's nothing left but hate
