

Liar

Egypt Central

It's like your standing over me
With a match and a bottle of kerosine
Never knew you'd bloom into a psycho
Getting ready to set me aflame
I won't forgive and I won't forget
You killed the cause of compassion
You hypocrite you counterfeit
I'm done with this because I can see what you are

Liar and you burn me worse than fire
It happens every time
We burn, burn, burn
Burn, burn, burn
I should've known you were a liar

Liar and you burn me worse than fire
It happens every time
We burn, burn, burn
Burn, burn, burn
I should've known you were a liar

You are the scars all over me
The mess left from the secrets that you keep
Didn't know you were slowly going psycho
I am the ash of your blaze
Getting ready to set me aflame
I won't forgive and I won't forget
You killed the cause of compassion
You hypocrite you counterfeit
I'm done with this because I can see what you are

Liar and you burn me worse than fire
It happens every time
We burn, burn, burn
Burn, burn, burn
I should've known you were a liar

Liar and you burn me worse than fire
It happens every time
We burn, burn, burn
Burn, burn, burn
I should've known you were a liar

The smoke has cleared away
Along with all my fame
Nothing to believe in
You choke on things you say
Because all your words are fake
Nothing to believe in

Liar and you burn me worse than fire
Liar and you burn me worse than fire
It happens every time
We burn, burn, burn
Burn, burn, burn
I should've known you were a liar

Liar and you burn me worse than fire
It happens every time
We burn, burn, burn
Burn, burn, burn
I should've known you were a liar
