

## Said And Done

### Eighteen Visions

Close the book and turn the page  
Exit players from the stage...  
Count the moons and stars  
But please stop fighting wars with me...

After all is said and done  
You still try  
After all is said and done  
You're not mine

Turn your back on all hope  
This sheep has shed his winter coat...  
You send your notes and rantings  
This pigeon has hard times landing...

After all is said and done  
You still try  
After all is said and done  
You're not mine

After all is said and done  
You still try  
After all is said and done  
You're not mine
