

Fourth Degree

Eilen Jewell

Once upon a starry night
I had a little boy was the light of my life
And I know that I never can stay away
Oh my god I pray

Well I follow you down, I follow you down
I won't do nothing till I follow you down
And I go so far astray
That it takes years to find my way

The first degree, the second degree
I can't stop baby till the fourth degree
And I go all outta my way
Just to chase all my blues away
