

So Long Blues

Eilen Jewell

I've been waiting forever now
I've been waiting so long
Guess I'll wait my whole life out
And honey it just seems wrong

It's been so long since your kissing
So long since holding you
All your loving I've been missing
I've got the so long blues

You can't make up your mind about me
It's been taking you so long
First it's yes, then maybe
And then you're up and gone

Since the day that we first met
My life's got no reason or rhyme
Ain't no telling what to expect
Well so long peace of mind

But some fine day
I'll get my senses back
Someday I'll dust my broom
I'll tip my hat, head down the tracks
And say so long blues
